

Pipeworks Division

CAPABILITY STATEMENT

Expert precision. Fleet ownership. Hands-on site leadership. Pipeworks delivered differently.

COMPANY OVERVIEW

ADM Pipeworks is the specialist underground pipeline division of ADM Civil, leveraging the experience of three directors with 40+ years combined experience across stormwater, sewer and watermain reticulation construction. We deliver pipeline packages of all sizes across South East Queensland from ECI phase through to final inspections – eliminating the coordination gaps that delay project programmes and erode returns. Our director-led model means a senior decision-maker is accountable for every metre of pipe laid.

THE ADM DIFFERENCE

Our specialist team backed by in-house capability. Full accountability, no excuses.

Professional Pipelaying

- Our team of accredited and certified pipelayers ensure project productions are met through quality workmanship and a comprehensive knowledge of specifications, resulting in no dig ups

Internal Plant Hire

- Our internal team of skilled operators are supported by a fleet of 8-25 Tonne Excavators all GPS Integrated with market leading technology.

Comprehensive Project Knowledge

- Our management team with extensive experience across all aspects of civil construction will forecast and co-ordinate design and/or project risks ahead of time

Safety Framework

- Our safety framework is built to ISO Standards to ensure compliance to all levels of client requirements

OUR SERVICES

Our experienced team is ready to take on your next pipeworks project, backed by extension knowledge across all sectors.

SEWER

Sewer reticulation, manholes, poo pits, house connections, live works

DRAINAGE

Stormwater pipework, pits, structures, detention basins, roofwater

WATERMAIN

watermain reticulation, plumbing works, live connections

BIO RETENTION

Bio-retention pipework and structures

AUTHORITY AREAS

Confidence in understanding the requirements for your next project, our team have worked across a majority of local authorities in the SEQ Region.

- Moreton Bay Regional Council
- Brisbane City Council
- Logan City Council
- Somerset Regional Council
- Urban Utilities
- Unity Water
- Logan City Council
- Gold Coast Water

PEOPLE & GOVERNANCE

Most civil and pipework contractors have layers between you and decision-makers. ADM doesn't. Our three directors cover project management, plant operations, and site supervision so every stage of your project has director-level oversight and accountability. No middlemen, no finger-pointing, no waiting for answers.

Alex Bax

DIRECTOR - CONSTRUCTION MANAGER

7+ YRS Project Management

Stakeholder Management

6 - 580 Lot subdivisions

SEQ

ABOUT ALEX

Highlights:

- Excellent stakeholder management including Clients, consultants, regulators and subcontractors
- Disciplined delivery through acute commercial, cost and time control
- Compliance with all standards, specifications and conditions of approval
- Committed to open liaison with Clients ensuring a 'no surprises' relationship

Alex brings 7 years of civil construction experience across engineering and project management roles. As a Senior Project Manager at an established SEQ contractor, he delivered \$180M+ in subdivision and infrastructure projects ranging from 6 to 580 lots.

His strength is project control, work breakdown structures, critical path management, risk mitigation, and clear milestone delivery. He understands council and authority requirements inside out, ensuring approvals and acceptances don't become project blockers.

Trusted by clients and authorities alike, Alex resolves issues early through a non-adversarial and open approach and builds credibility through clear communication, honesty, accountability, and consistent delivery against commitments.

QUALIFICATIONS & TRAINING:

■ Bachelor of Engineering
(Civil) (Honours)

■ Diploma of OH&S

■ RIIWHS302E Implement
Traffic Management Plans

■ RIIWHS204D Work Safely at
Heights

■ RIIWHS202D Enter and Work
in Confined Spaces

PEOPLE & GOVERNANCE CONT.

Damien Zaf

DIRECTOR - FLEET & FINANCE MANAGER

20+ years plant ownership & operations

Subdivision specialist

Komatsu fleet partner since 2023

ABOUT DAMIEN

Highlights:

- Proficient operator across all phases of construction
- GPS machine guidance across all equipment
- Full Komatsu aftermarket and maintenance support
- Impeccable project safety record

Damien's ownership of a longstanding plant hire company provides ADM Civil with dedicated resources and skilled operators. His fleet of specialised small to large excavators delivers end-to-end civil works with minimal reliance on external resources.

Damien understands that project schedules depend on plant availability and builds capacity to foresee and mitigate delays before they hit the programme.

His team has spent the majority of their time in the subdivision sector, contributing to all phases - bulk earthworks, pipeline installation, pavement preparation, and final trim. Since 2023, Damien has partnered with market leader Komatsu Australia, equipping his fleet with the latest machine guidance technology and full aftermarket support

QUALIFICATIONS & TRAINING:

■ Bachelor of Accounting

■ RIIMPO32F Excavator Operations

■ RIIMPO323E Bulldozer Operations

■ Cert IV Civil Construction Supervision

■ RIIMPO338E Haul Truck Operations

PEOPLE & GOVERNANCE CONT.

Max Morrison

DIRECTOR -
OPERATIONS
SUPERVISOR

13+ years construction
experience

Extensive knowledge
across all disciplines

Wide ranging
qualifications and
competencies

Projects to \$15M+
delivered

ABOUT MAX

Highlights:

- Has managed teams of 5-50 employees
- Broad expertise in all phases of civil construction
- Extensive WHS qualifications and commitment to safety
- Committed to working to cost and programme constraints

Max started in construction as a labourer on a pipe crew in the Alberta oil fields in 2013. Since then he has risen to Pipe Crew Foreman through to Supervisory roles across projects in Sydney, Melbourne, and South East Queensland.

Max has built a deep expertise across bulk and detailed earthworks, underground infrastructure, retaining walls, and road construction. He has directly supervised teams of 5 to 50 people, delivering residential, commercial and industrial infrastructure projects up to \$15M+ at any one time. His team's successful delivery is underpinned by a vigilant on ground presence and high quality of workmanship.

His hands-on approach and communication skills keep projects on time and to standard. A comprehensive suite of WHS qualifications reinforces Max's focus on worksite safety a value embedded across all ADM Civil projects.
